

### TOTAL CAPABILITY IN INFRASTRUCTURE

With a proud 50 year history, Kypreos Group has successfully constructed, upgraded and maintained Airport Pavements, Multi-Lane Freeways, Local/Major Aterial Roads and Bridges across NSW.

We specialise in all aspects of Road Maintenance and delivery of Infrastructure Projects, providing excellent service, and products that stand the test of time.

Our clients include State and Federal Government agencies, Airports, Blue Chip Civil Companies, Local Councils, Toll Road Operators, Department of Defence and Developers.

### WHY CHOOSE KYPREOS GROUP?

Forward-thinking and delivering world-class results, the Kypreos Group of companies, Nace Civil Engineering, State Asphalt Services, Sydney Road Profiling, State Asphalts, Atlas Traffic Management and Kypter are focused on leveraging innovative and sustainable technologies.

Partner with a trusted company that is leading the way when it comes to reducing costs and environmental impact of your project, whilst maintaining the highest safety standards.

You will also benefit from:

1. Tailored advice on treatment options to suit any pavement type
2. Sustainable Asphalt mixes incorporating a range of post consumer recycled materials
3. World class Asphalt operations located in Prestons, St Marys and Nowra
4. Remote working capability including Mobile asphalt plants
5. The ongoing support of a committed and professional team.

### INFRASTRUCTURE

Our in-house engineers bring insights & experience to every project

### CONSTRUCTION

From design to completion, we provide end-to-end project solutions

### ASSET MANAGEMENT

Advice on lowest 'whole of life' cost treatment options

### RESILIENCE

Focused on sustainable outcomes whilst minimising the environmental impact
